To SB254Input <SB254Input@calquake.com>

Hello,

My name is Kristian Fors and I am a research fellow at the Independent Institute, a public policy think tank based in Oakland. In preparation for your upcoming study on natural catastrophe resilience, I wanted to share the following research that we have produced on California's struggling insurance markets and the state's wildfire challenges:

Policy report: [Why California's Homeowners' Insurance Market Collapsed—and How to Fix It](#)

Policy report: [California Burning: CAL FIRE Wins Dishonor of the California Golden Fleece® Award](#)

Article: [Why California's Plan to Harden Homes against Wildfires Is Broken](#)

Please let me know if you have any questions.

All the best,

Kristian Fors
